

To the residents and businesses of Rostraver Twp:

We, the members of Rostraver Twp. VFD #1 Webster, would like to thank you for your continued support of our department throughout the years. In 2022 we were privileged to take delivery of our new 2022 Smeal Spartan Engine, as seen on the front of this brochure.

This year we are hoping to replace some of our older rescue equipment and electric hand tools with more efficient and reliable Battery-operated tools. This will allow the firefighter arriving at your emergency to be faster and more efficient in helping you and the community which we serve. To assist us in making this a reality, we are asking our residents and businesses for their assistance by donating towards the purchase of this equipment.

Our members invest a considerable amount of time on training and fundraising. They also spend countless hours on emergency scenes. We are there for our community 24 hours a day, 7 days a week, 365 days a year and are all volunteer. We are asking that you help us help you. Every donation, of any amount, is vital for day-to-day operations. Our department is a 501(c)3 non-profit organization which makes your donation tax deductible.

The Rostraver Township VFD #1 officers and members would like to thank you in advance for your support and wish you a safe year.

- Donations can be made by mailing in a check payable to **Rostraver Twp. VFD #1**
- Donate by using Venmo or Square at [rostravertownshipvfd1.org](https://www.venmo.com/rostravertownshipvfd1.org) or our Facebook page **Rostraver Township VFD Webster**

Did you know:

While the number of volunteer firefighters are declining, the age of the volunteer firefighter is increasing. (NVFC)

The time donated by volunteer firefighters saves localities across the country an estimated \$139.8 billion a year. (NVFC)

Communities served by volunteer firefighters depend on them to be their first line of defense in many types of emergencies – more than just fires.

EMERGENCY CALLS

Have You Changed Your Smoke Detector/CO Detector Batteries

Replace your smoke detector battery once a year. (Choose a specific date, such as when you are updating the time on your clocks.) When a battery is running low, the detector will “beep,” indicating that the battery needs to be replaced. **Do not use rechargeable batteries.**

Smoke detectors also need to be replaced every 10 years and CO (carbon monoxide) detectors need to be replaced every five years. Wired-in smoke detectors require testing, as well, and also have a failure rate. Please refer to the owner's manual or change them every 10 years.

Test your smoke detector every month by pressing the “test button” on the face of the detector. If your detector fails, replace the battery and repeat. If it continues to fail, replace the detector.
